What did people say on the survey? (Comments appear as written)

Student

The students in the school have the best school spirit. No one can beat our school spirit, and the education is amazing, and understanding most of the time.

Parent

I believe you have great potential, but I believe the level of expectation for academics is not up to par, in so that some of the struggling students or those lacking in effort are catered to, at the expense of my child's educational experience...

Teacher

My school needs more special education teachers. More and more children are being identified as needing services, but no extra teachers are being hired to support them or the teachers.
