#### Student

*its fun*

#### Parent

*The Staff @ my child(ren) school are very helpful with my child needs and always has a helping hand in his progress in his academics and his behavior*

#### Teacher

*Testing seems to get more priority than some real issues kids need help with. Some of these issues have to do with self-esteem, poverty, abuse, lack of preparation for the school environment, some learning issues. I believe students should be tested for some social skills or learning issues, so we can better help them succeed in this environment...*
