The best consequence for student behavior is detention that happens with swiftness and certainty. Paperwork and delay undermine it. School-wide behavioral expectations (both rewards and punishments) are necessary so that everyone is on the same page (staff, students, parents).

The colored dots indicate the extent of the most positive feedback provided for each topic and subtopic (e.g. "strongly agree"). Black dots correspond to the lowest quartile (less positive feedback) and green dots the highest (more positive feedback). Dashes mean we did not ask a group about a given topic. Indicators can be used to easily identify a school's relative strengths and areas most in need of support.

Under the current principal, the school is going in the wrong direction. Safety is a big concern because he does not report or want things reported to SIMS. There are no real consequences when student break basic school rules. Supplies and resources are dwindling due to misused or missing money and funds...
