The colored dots indicate the extent of the most positive feedback provided for each topic and subtopic (e.g. "strongly agree"). Black dots correspond to the lowest quartile (less positive feedback) and green dots the highest (more positive feedback). Dashes mean we did not ask a group about a given topic. Indicators can be used to easily identify a school's relative strengths and areas most in need of support.

Student

I would also like our school to be cleaner, make the school look newer, and also less bullies in classrooms

Parent

Why does the school prepares the children only two weeks before the pssa test. The children should be getting taught similar things that are given on the pssa test throughout the school year prior to the test.

Teacher

I think it is important that when professional development is scheduled district wide, we can all access the computers. We are hardly ever able to get on.
