at this school the teacher don't care about us they do what they want to do it need to be more clean & took good care of also need more teachers that help us ... and make the kids follow the rules

Parent

DID NOT MEET REPORTING THRESHOLD

Teacher

collaborative planning time with teachers is not possible without actual time rtii program doesn't work without the available interventions, students that are deficient are not able to be properly grouped for interventions and therefore not being identified for needed services
