The school would be perfect if the teachers followed through with the education plan they initially give. I gave my phone number to teachers and when there is a problem I am never contacted.

Our children enjoy going to the refocus room. I do not see evidence that it has improved behavior. The school is lacking a school wide plan that is implemented, school wide rewards are not given when promised, children who are suspended and do not follow the school rules get to attend trips...

The colored dots indicate the extent of the most positive feedback provided for each topic and subtopic (e.g. "strongly agree"). Black dots correspond to the lowest quartile (less positive feedback) and green dots the highest (more positive feedback). Dashes mean we did not ask a group about a given topic. Indicators can be used to easily identify a school's relative strengths and areas most in need of support.

The school days are too long for the staff and students. That extra 45 minutes makes a huge difference. Also, there is a serious inconsistency from administration and the consequences that are given out. Teacher safety is not a priority...
