I would like to see more teachers because feel that there are too many students in one class room. And with so many students in one class its harder to learn because you cant do anything with the students that starts problems, its not like you can put them in another classes because the other classes are just as full.

I have never felt less encouraged and supported in my twenty-two years in education...

I really want the school to be a lot more cleaner then it is now. I also think we should get better lunches. Thank you and your welcome.

Parent

very please with the help my child is receiving here at wagner middle school

Teacher

I think it would be beneficial if there was more time afforded for teachers to observe teachers. I feel teachers give each other the best feedback, but scheduling/coverage does not allow for this. I know I struggle with classroom management and would love to have colleague give me feedback...
