Our schools need more enrichment classes of Art, Music and Dance. There is too much emphasis on the PSSA testing for grades 3 and up. Children need an outlet sometimes in schools, and by providing Art, Music, and Dance, this would be very helpful...

What subtopics were included? How positive was the feedback for each subtopic?

| Topic | CLIMATE | | | | | | | | |
|---------|-----------|----------|---------------------------|-----------------------------------|---------|----------------------------|-------------------------|---------------------|--|

|-------------------------------|----------|-----------|-----------|----------|--------------|-------------------------------|
| Percentage Positive Responses | 0%-24.9% | 25%-49.9% | 50%-74.9% | 75%-100% | Not measured | Not enough responses to score |

The colored dots indicate the extent of the most positive feedback provided for each topic and subtopic (e.g. "strongly agree"). Black dots correspond to the lowest quartile (less positive feedback) and green dots the highest (more positive feedback). Dashes mean we did not ask a group about a given topic. Indicators can be used to easily identify a school's relative strengths and areas most in need of support.

The LARGE classes sizes prohibit teachers from meeting the needs of all their students. We can not be competitors with the rest of the world/ districts with over 35 students in our classes and NO TECHNOLOGY!
