The lack of staffing at my school has made this school year a literal nightmare for both students and staff. The school is unsafe for both teachers and students. Teachers are over extended in covering for staff who have frequent absences or vacancies that have never been filled. The environment is not conducive to learning or working.

The colored dots indicate the extent of the most positive feedback provided for each topic and subtopic (e.g. "strongly agree"). Black dots correspond to the lowest quartile (less positive feedback) and green dots the highest (more positive feedback). Dashes mean we did not ask a group about a given topic. Indicators can be used to easily identify a school's relative strengths and areas most in need of support.

Any suggestions to improve teacher morale would be greatly appreciated. Teacher attendance is often around 75%-80%. At least 8 teachers quit, (Some with no alternative employment prospects) before May and many have left on extended leave...
